BLACKPOOL'S FIRST EVER CARNIVAL 1923

Blackpool has never been slow in coming forward and having a party, ensuring all involved are having fun, never more has this been the case as in 1923 when the first ever Carnival was held and to be repeated during the following year. Never before and never since have so many visitors travelled to the town for the one event, either to participate in or watch processions, pageants, motor races, dog shows to name only a small part of the celebrations.

Huge crowds lined the street, especially the promenade, just to get a glimpse of the Carnival Royalty, the huge peculiar looking large heads and the decorated vehicles and trailers that were part of the procession. The Carnival King and Queen flew in by plane and landed on the beach. The 1923 Carnival lasted for eight days such was its popularity and it is estimated that over 2 million people were attracted to Blackpool, amazing to think that the main form of transportation besides the bicycle and horse and cart was the steam train, yet that vast number of people managed to get to the Town.

However this event undoubtedly lifted the doom and gloom of the years after the First World War, prior to which the first ever Annual Light Festival had started and which is still at the forefront of the attractions that Blackpool is known throughout the World for, The Illuminations.

The whole of the community seemed to be involved, schools were given special permission to close so that all the local children could be part of the events, businesses were heavily involved, the whole event being organised by the local council, each day having a different theme.

The rainbow of colours, the pandemonium of dancing, singing, drumming, excitement, enjoyment and festivities were the essential ingredients of a fantastically successful event.
