We came to The Grand for our wedding reception and they could not have done better. We are so happy with the way everything has been from the set-up to the start. It's all been great!

Mr & Mrs Buckley

Thank you for being available and approachable from the offset. You worked diligently, always going above and beyond, you were very present throughout the whole weekend! All the staff were very approachable, pleasant and were willing to help as quickly and as effectively as they could even at busy times. It was pleasure to work with you and all your team.

We chose the Grand as Blackpool held a special place in our hearts. When we were in training, we spent many a happy weekend coming to Blackpool. We came to the Grand for a reccy and it has all the facilities we needed, but what's more important the people we have been working with have been great and really helpful and it's been a pleasure organising the event which we've been planning for 3 years.
