is the only fee
- Top up loans with same
T&C.
- Some loans are with no
credit check but
affordability check
- Full control in our app

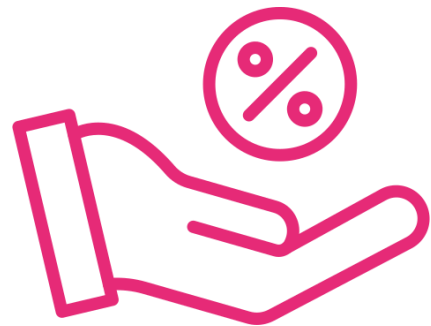

Need any information? Email: hello@clevr.money.

Credit unions have existed for over 140 years. The aim has been providing an independent community financial institution that finances its members in need with eliminating the high interests and costs imposed by commercial financial institutions while building people's financial resilience. Today, credit unions are the best option to convey financial stability through this storm of cost of living crisis.
